

Restaurant Waiting Games

Shugah, Shugah

Arrange 12, 16, 20, or 24 packets on the table in straight lines of four. Now have two players take turns removing one, two, or three packets at a time. The player who picks up the last packet loses.

Money Pairs

Hide an even number of pennies, nickels, dimes, and quarters under the packets and take turns trying to find matching pairs.

Crazy Menu

Player 1 crosses out a key word on a paper menu. Then player 2, player 3 etc. Continue taking turns. Then read aloud the new food items they have generated. Mustard Pancakes and Jelly Steak. Mmmmm good!
